

# Uncle Noah Bible Trivia

## Did you know:

**Noah had tools of iron and bronze and could have listened to music while building the ark.**

In Genesis 4:19-22 we read about Jubal and Tubal-Cain (cousins of Noah.) Jubal was the father of those who played the flute and harp and Tubal-Cain made tools of iron and bronze.

**Methuselah, Noah's Grandfather, died in the year of the Noah flood.**

See if you can figure this out by reading Genesis 5:25-31. All most of us know about Methuselah is that he was the oldest man in the Bible.

**Noah, his family and the animals were in the ark 1 year and 10 days.**

Check it out in Genesis 7:11 and 8:14.

**The name of Noah's great, great grandson Peleg means "the world divided".**

This is especially interesting when we look at the global map that looks like a puzzle that fits together. (Genesis 10:25)
